

HTML CODE

The screenshot shows a Sublime Text editor window titled "C:\Users\lenovo\Desktop\Banking\bot.html (Banking) - Sublime Text (UNREGISTERED)". The editor displays the following HTML code:

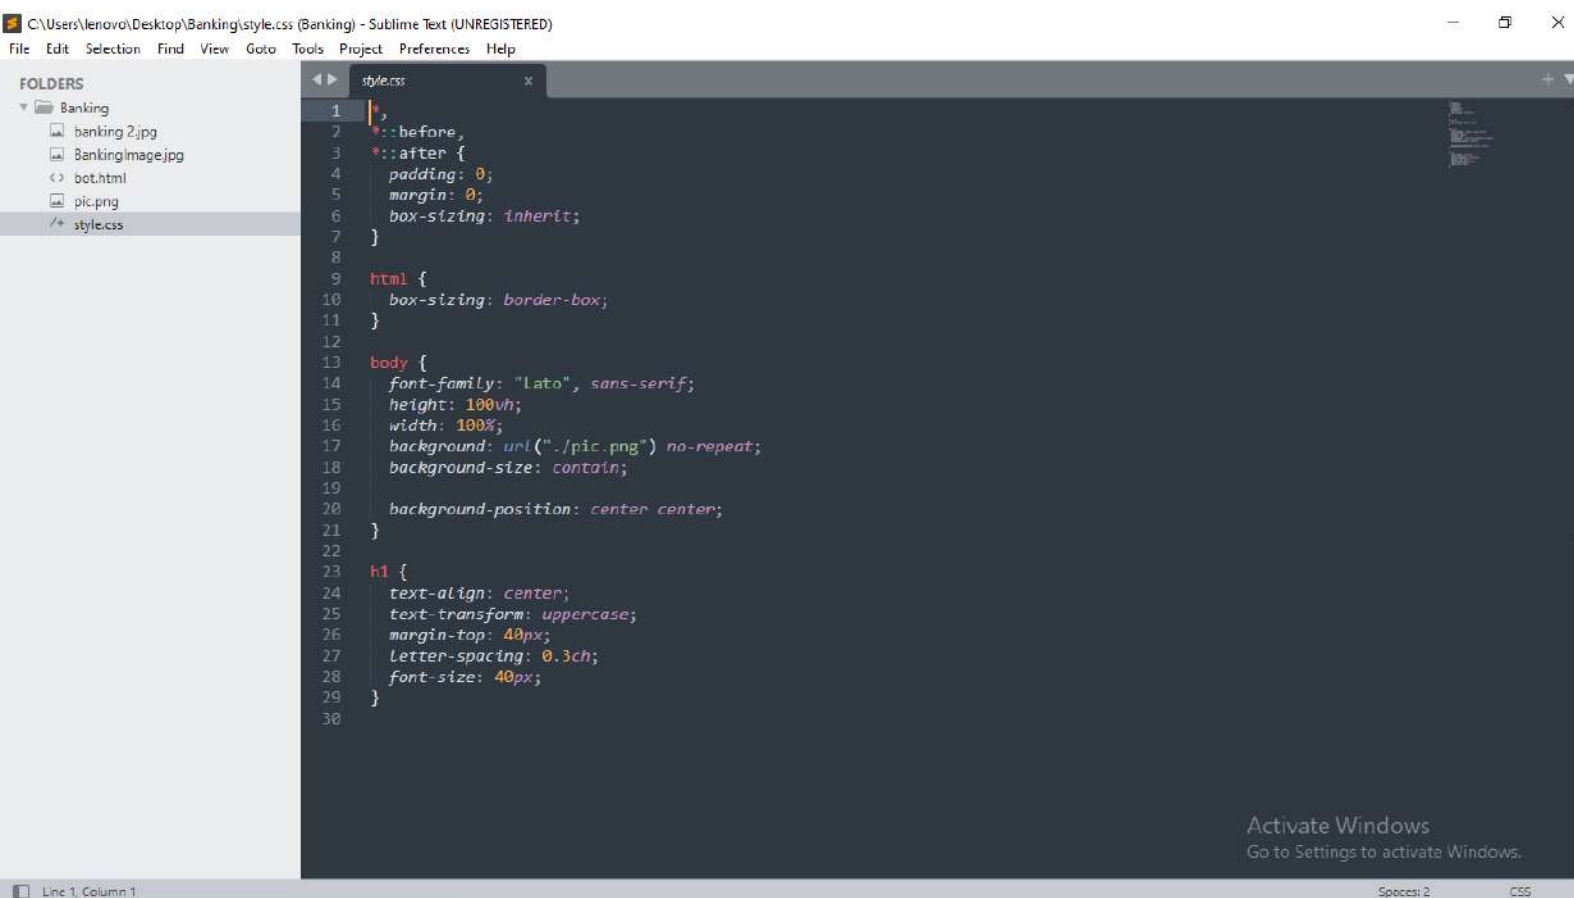

```
1 <!DOCTYPE html>
2 <html lang="en">
3   <head>
4     <meta charset="UTF-8" />
5     <meta http-equiv="X-UA-Compatible" content="IE=edge" />
6     <meta name="viewport" content="width=device-width, initial-scale=1.0" />
7     <link rel="preconnect" href="https://fonts.googleapis.com" />
8     <link rel="preconnect" href="https://fonts.gstatic.com" crossorigin />
9     <link
10       href="https://fonts.googleapis.com/css2?family=Lato:ital,wght@0,400;0,700;1,400&display=swap"
11       rel="stylesheet"
12     />
13     <link rel="stylesheet" href="./style.css" />
14     <title>Banking Industry - Chatbot</title>
15   </head>
16   <body>
17     <h1>AI Based Discourse for Banking Industry</h1>
18   </body>
19   <script>
20     window.watsonAssistantChatOptions = {
21       integrationID: "8b229483-f3eb-4fb0-b5b0-2f9e9240f78a", // The ID of this integration.
22       region: "us-south", // The region your integration is hosted in.
23       serviceInstanceID: "6ac10328-409a-475a-b869-36d3ee07ce2f", // The ID of your service instance.
24       onload: function (instance) {
25         instance.render();
26       },
27     };
28     setTimeout(function () {
29       const t = document.createElement("script");
30       t.src =
31         "https://web-chat.global.assistant.watson.appdomain.cloud/versions/" +
32         (window.watsonAssistantChatOptions.clientVersion || "latest") +
33         "/WatsonAssistantChatEntry.js";
34       document.head.appendChild(t);
35     });
36   </script>
37 </html>
```

The code defines a chatbot interface with a title "Banking Industry - Chatbot", a heading "AI Based Discourse for Banking Industry", and a script that initializes the Watson Assistant chat interface. The script includes configuration for the integration ID, region, and service instance ID, and sets up a timeout to load the chat entry script.
